ROWE FEATURES → HERCULON® | Scotchgard STAIN REPELLER | DACRON® by DuPONT

the finest look alike the scotchgard name can give chatham FABRICS

THIS CATALOG AND ALL SALES AIDS ARE THE PROPERTY OF THE ROWE FURNITURE CORPORATION, SALEM, VIRGINIA AND POPLAR BLUFF, MISSOURI, AND WE RESERVE THE RIGHT TO RECLAIM THESE MATERIALS AT ANYTIME.

SPECIFICATIONS

Special Orders — We shall endeavor to ship within six to eight weeks after order is received. As usual, notification of any changes will be brought to your attention by letter and these changes will remain in effect until further written notice. Shipping information is based on normal production schedules unless conditions should arise beyond our control.

Customer's Own Material — Due to mass production techniques, customer's own material cannot be accepted.

Style Variations — All pieces available only as shown in the catalog and price list.

Self Covered Platform — Covered platforms are available on most styles — see price list for applicable styles. Unless otherwise advised all orders will be processed without self platforms.

Zippers — Standard construction on all back and seat cushions except where design or engineering restricts their use.

Prices and Specifications — Subject to change without notice.

Cancellations and/or Hold Ups — Cannot be accepted after an order is scheduled for production since all merchandise is made to the customer's specifications.

Loose Seat Cushions — Dacron® wrapped cushions are standard unless otherwise noted.

Wood Finishes — See wood finishes section.

Standard Quilting — Styles that can be quilted are so indicated. Unless otherwise noted, only one side of seat cushions and inside backs are areas that are quilted. In case of styles with loose pillow backs, one side of the pillow would be outline quilted. Unless noted to the contrary this is also the case on styles including bolsters.

Protective Fabric Finishing — A selection of fabrics are available treated with Zepel® or Scotchgard® fabric finisher at no additional charge.

Fabric Guarantee — Due to conditions beyond our control we cannot guarantee wearing ability, color fastness or shrinkage of any fabric used on our merchandise, nor can we guarantee protective fabric finishes. Velvets, velvet types, and orlons are by their very nature fabrics of soft texture and will crush, shade and mark more readily than most fabrics. This is in no way to be considered a defect.

FRAMES

Frames are of kiln-dried hardwood lumber. Each part of every frame is made of carefully selected hardwood lumber that has been kiln dried in the latest Temperature Controlled Kilns to prevent twisting and warping.

The various frame parts are assembled in hydraulic presses where the joints are double doweled, reinforced and held firmly in place with corner blocks under controlled pressure. Each joint is thoroughly and carefully glued with the finest synthetic resin glue.

SPRINGS

Durable spring seat construction. Highest quality resilient spring steel wire seat construction is triple braced to frame and reinforced for lateral motion. Allows for individual relaxing desires conforming to body load. Provides the most durable and comfortable type of construction. Each piece is made with flexible "spring edge"* seat which provides a crisp, tailored front edge and maintains the utmost in relaxing and restful comfort.

*Except where impractical because of design.
